SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C.824a(e)).

On June 14, 2012, DOE received an application from Dynasty Power for authority to transmit electric energy from the United States to Canada for five years as a power marketer using existing international transmission facilities. Dynasty Power does not own any electric transmission facilities nor does it hold a franchised service area. Dynasty Power states that it will make all of the necessary commercial arrangements and will obtain any and all of the required regulatory approvals to affect the export of electricity to Canada as requested.

The electric energy that Dynasty Power proposes to export to Canada would be surplus energy purchased from electric utilities and Federal power marketing agencies within the United States. The existing international transmission facilities to be utilized by Dynasty Power have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

PROCEDURAL MATTERS: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the Dynasty Power application to export electric energy to Canada should be clearly marked with OE Docket No. EA-385. An additional copy(s) is to be filed directly with Allen Cho, President, and Todd McRae, Risk Manager, Dynasty Power, Inc, 500 715 5th Ave SW, Calgary AB, CN T2P2X6 and Bonnie A. Suchman, Troutman Sanders LLP, 401 9th Street, N.W., Suite 1000, Washington, DC 20004.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR Part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program website at <http://energy.gov/node/11845> or by emailing Angela Troy at Angela.Troy@hq.doe.gov.
